

CE MARKING CHECKLIST FOR CONSTRUCTION PRODUCTS

(EU Regulation 305/2011 – CPR)

Why this checklist matters

To place construction products on the EU market, compliance with Regulation (EU) No 305/2011 (Construction Products Regulation – CPR) is required.

Manufacturers often face challenges such as:

- Understanding applicable harmonized standards
- Selecting the correct AVCP system
- Preparing technical documentation
- Completing the Declaration of Performance (DoP)

Uncertainty in any of these areas may lead to delays or non-compliance risks.

CE Compliance Checklist

Please review the following statements:

- My product is covered by a harmonized European standard (hEN)
- The correct AVCP system has been identified
- Required product testing has been completed according to EU standards
- Technical Documentation (Technical File) is complete
- Declaration of Performance (DoP) has been prepared
- Product labeling meets EU requirements
- It is clear whether a Notified Body is required
- Factory Production Control (FPC) is documented

Compliance Assessment

Count your answers:

● 7–8 YES — Low Risk

Your compliance framework is likely well established.

● 4–6 YES — Medium Risk

Some compliance elements may be incomplete or unclear.

● 0–3 YES — High Risk

Significant compliance gaps may exist.

Important Notice

If you are not fully confident in your answers, your product may not fully comply with EU CPR requirements.

In construction products, uncertainty often leads to:

- Delays in market access
 - Documentation issues
 - Risk of rejection by distributors or authorities
-

Professional Support

We provide CE marking services for construction products under EU Regulation 305/2011, including:

- Identification of harmonized standards (hEN)
- AVCP system determination
- Technical documentation preparation

- Declaration of Performance (DoP)
 - Support with Notified Bodies
-

Need clarification?

If you are unsure about your compliance status, we can review your product and provide clear guidance.
